D 7.7 – REPORT ON DISSEMINATION ACTIVITIES

CONURBANT –

*An inclusive peer-to-peer approach to involve
EU conurbations and wide urban areas in
participating to the Covenant of Mayors*

Intelligent Energy Europe (IEE)

Contract No: IEE/10/380/SI2.589427

Start date of the action: 10 May, 2011

End date of the action: 09 May, 2014

Duration: 36 months

Prepared by: Chamber of Commerce and Industry Vratsa

Co-funded by the Intelligent Energy Europe
Programme of the European Union

I. Deliverable Abstract

The main objective of this deliverable – D 7.7 – Report on dissemination activities - is to give an overview of the overall dissemination activities of the CONURBANT project. It covers the whole project lifetime as dissemination was carried out during the whole project duration.

This report is prepared by Chamber of Commerce and Industry Vratsa (CCI Vratsa) as leader of the Work Package 7 – Communication, Dissemination and Networking with the support of all project partners.

In the first part of the present report is presented summarized information about the elaborated project dissemination tools and channels.

The second part presents detailed lists of dissemination activities carried out within the CONURBANT project.

II. Dissemination channels and tools:

The main CONURBANT tools and channels of dissemination were set in deliverable D7.3 - Dissemination and Communication Plan. It was elaborated at the beginning of the project by Chamber of Commerce and Industry Vratsa and updated during the project implementation.

II.1. CONURBANT dissemination channels and tools:

- **Project corporate identity** – project logo, preparation of dissemination materials for wide promotion of the project – complied with the requirements for visualization. All partners were responsible for dissemination of these materials.

- **Project Website** – www.conurbant.eu - It is a source of reliable information. Website was updated regularly with news and information and all project partners were involved to provide inputs. Ready project materials are uploaded on the project website – so that to be easily disseminated. CONURBANT website provides useful links to other IEE project and other links with useful information. Website provides also information about the project in all project partners` languages.

- **Public mailing list** – it was used as a key factor for sending information about the results and materials of the project. All users were invited to subscribe to a mailing list to receive regular project updates. E-news were shared using existing mailing lists of the project partners and all networks they belong to, project partners in other projects under IEE Programme as well as other relevant projects that CONURBANT project partners were involved in.

- **Opportunity based PR** – All project partners contributed to the visibility of the project, its activities and dissemination of the results by using their own communication channels. All partners uploaded information about the project and its objectives on their own websites. All

Co-funded by the Intelligent Energy Europe
Programme of the European Union

partners have well established relations with media in their cities. Local media were invited to all local events and were regularly updated with news for the project and its outcomes. Social Networks were used for the purposes of the project as they have proved as a powerful communication and dissemination tool.

- **Project leaflets** – they were elaborated in paper and electronic version, format A3/A5, triple-folded. They contain the most important and relevant information and were disseminated among representatives of target groups, key actors and stakeholders during the whole project duration. Because of the target groups under the project were prepared two types leaflets: Leaflet for the general public and Leaflet for the Municipalities and more specialized target groups. Leaflets were complied with the requirements for visualization. They contain a section where there are links with contact of all partners and other IEE projects. All partners gave their ideas and opinion on the most relevant information that was included in the leaflets. Leaflets were produced in English and all partners had the responsibility to translate them in their own languages. CCIV provided all partners with English version of the leaflet and they translated and printed them for their own dissemination use.

- **Project e-newsletters** – Two types of e-newsletters were elaborated during the project – e-newsletters dedicated to the CONURBANT project and e-newsletters prepared jointly with other IEE projects (LEAP, Covenant Capacity, Erenet and CASCADE). The issued e-newsletters were translated in partners' languages and disseminated via e-mails, uploaded on the websites, shared links, etc.;

- **Project final brochure** (final publishable report) – issued in paper and electronic version, 36 pages, translated in national partners' languages, presenting all efforts, results and achievements related to the project. It has to be disseminated and promoted on all levels - local, regional, national, EU and by using all possible communication and dissemination channels.

- **Video Clip** - produced in short (3 minutes) and long (10 minutes) versions, played during different events and uploaded on the website as well as in Facebook and YouTube, third part pages (links), social media, etc.

- **International workshops** - All partners regularly attended events at local, national and international levels. Two international workshops were organized within the European Sustainable Energy Week in Brussels in 2012 and 2013. They were a great opportunity for the CONURBANT project to promote its objectives and results as many of the participants were part of the target group, key actors and stakeholders of the project. Workshops were structured as open training sessions for Local Authorities that were interested in, were going to, or had recently signed the Covenant of Mayors and needed peer-to-peer support to implement the technical activities foreseen. There were members of other IEE projects, EACI

Co-funded by the Intelligent Energy Europe
Programme of the European Union

(now EASME) representatives and they were welcomed to integrate their activities with the CONURBANT project for better results and exchange of experience between the projects. CCI Vratsa was responsible partner for media coverage of the Workshop organized during the EUSEW in 2013.

- **Annual Energy Days** – Local Energy Days were organized by partners as part of their official commitments, with the aim of raising public awareness of the opportunities offered by a more intelligent use of energy. They provided an occasion for local authorities to involve stakeholders and citizens in a common dialogue related to the development and implementation of Sustainable Energy Action Plans. Activities included workshops, exhibitions, guided visits and open door days and provided direct opportunity for communication between project partners, target groups and the general public (citizens).

- **Increasing the number of Municipalities signing the Covenant** - This task was related to increasing the number of signatories of the Covenant across Europe. Municipalities started from engaging their institutional twin cities. Twin cities were invited to participate in training sessions, study tours and were able to use and promote the conurbation approach introduced by CONURBANT. All partners used their existing contacts with Municipalities on National and EU level.

II.2. Other channels and tools (wide-range audience):

- Mass media - publications on websites; press releases; short videos; social media; articles in journals and reports;

- Partners' web sites - Project section on the partner organizations' websites;

- Partners' offices – Information about the project in the daily activities of the partners – company visits, face to face meetings, events organized within the partner organizations, conferences, trainings, presentations, etc.;

- Third parties web sites – Information about the project and its activities on Third parties web sites;

- EEN internal channels (special audience – EEN members):

- EEN conferences and trainings
- EEN web site
- National EEN websites
- EEN partners websites belonging to the CONURBANT consortium
- EEN sector groups – one of the project partners has a member of the Intelligent Energy Sector Group.

Co-funded by the Intelligent Energy Europe
Programme of the European Union

III. Dissemination activities:

Below are presented detailed lists of dissemination activities carried out within the CONURBANT project. A tabular format has been selected to illustrate the essential information in a concise manner. Items have been arranged by type, as this is probably the most unambiguous one.

III.1. Events

During the project implementation all project partners were involved in organization of events which were part of the project activities. All partner municipalities with the support of the technical partners in the CONURBANT project organized and held different events aiming achievement of project results and outputs.

Significant numbers of events were held in all partner countries in order to inform, raise awareness about the project and its purposes, identification of stakeholders, definition of their involvement and adhesion of participants.

In general, events can be categorised in two main categories:

- **Events organized within the project** – workshops, training sessions, study tours, forums, and energy days. These events were dedicated to attract stakeholders and involve them in the project. These events were compulsory for the project partners. The main objective of these events was to improve the capacity of partner Municipalities in the field of developing, implementing and monitoring SEAPs, based on their specific needs assessment. Events organized within the project addressed the development of capacity in two ways, firstly through community peer-to-peer exchanges on experiences (to gain an insight into working procedures, to improve an understanding of challenges and to identify potential opportunities) and secondly through a range of more technical/specialised learning opportunities.

Information collected from all project partners by the Chamber of Commerce and Industry Vratsa within this Work Package shows that during the project implementation project partners have organized 100 events within the project with total number of more than 130 000 people reached.

In the table below are listed in details all events organized in all partner countries within the CONURBANT project:

Co-funded by the Intelligent Energy Europe
Programme of the European Union

Type of Event	Organizer	Date and Place	Short description	No. of persons reached
Workshop with Kyoto Club and CRES project - Mitigation measures to climate change	Municipality of Vicenza with Multiutility SpA	18/04/2013 - Vicenza	Dedicated to a joint event organised with the "Kyoto Club" to share information and good practices at local level	42
Workshop - Thinking about common local Energy Policies	Municipality of Vicenza	30/07/2013 - Vicenza	Dedicated to the Vicenzas' conurbation Municipalities that were not part of the Conurbant project, but very receptive on common energy policies proposal and CoM campaign. The main result of this workgroup was the creation of a wider permanent Vicenza round table on sustainable energy policies	12
Joint Workshop – Vicenza and Padova - opportunities offered by the Covenant of Mayors	Municipality of Padova and Vicenza	29/10/2013 - Rubano	The main result of these two workgroups was the creation of a permanent round table composed by the two Municipalities, their Conurbant conurbation towns, Vicenza permanent round table and few other conurbation towns from both provinces that create a continuous passage between these two provinces.	45
Joint Workshop – Vicenza and Padova - Analysis of possible joint actions present in SEAPs	Municipality of Padova and Vicenza	19/12/2013 - Vicenza	All neighbouring Municipalities were invited to take part in the working group and were invited to join the CoM initiative. In particular all the working groups worked on the possibility/opportunity to merge common actions by involving the municipalities signed up to the Covenant and also Municipalities that have not signed it yet.	20
Energy Days 2012 and 2013	Municipality of Vicenza	23/06/2012 22/06/2013 – Vicenza	Hundreds of people saw stands with project materials and stopped to ask information during the energy weeks that matched the 2012 and 2013 edition of Greenordest fair and Legambiente Feast	general public
Workshop	Municipality of Padova and Municipality of Due Carrare	24/06/2014 – Due Carrare	Workshop to disseminate Joint SEAP culture in the southern part of the Province of Padova, done during the EUSEW.	30
Local Training	Municipality of Padova	16/03/2012 - Padova	Padova Local Training	11
Forum	Municipality of Padova	04/05/2012 - Padova	Padova 1st Forum	12
Forum	Municipality of Padova and Municipality of Ponte San Nicolò	06/11/2013 - Ponte San Nicolò	Board to select SEAP for Ponte San Nicolò	3
Forum	Municipality of Padova and Municipality of Vigonza	24/07/2013 - Vigonza	Board to select SEAP for Vigonza	7
Forum	Municipality of Padova and Municipality of Due Carrare	04/02/2014 – Due Carrare	Board to select SEAP for Due Carrare	17
Energy Days - The Day of Green	Municipality of Alba	16/06/2012 –	"Green Planet"- Ecoshow with performances given by children from several kinder gardens	general

Co-funded by the Intelligent Energy Europe
Programme of the European Union

Energy at Alba Iulia	Iulia	Alba Iulia	from Alba Iulia; Conference - „Sustainable development in the city of Alba Iulia" Conference – Presentations Alba Iulia in the Covenant of Mayors; „Conurbant" project: supporting local authorities from Alba County toward a successful integration into the Covenant of Mayors; „Energy Neighbourhoods 2" – example of mobilising citizens to reduce energy consumption in their households.	public
First Energy Forum	Municipality of Alba Iulia	13/11/2012 - Ciugud	The event was moderated by the project manager Mr. Lorincz Gyula George, and by Mr Florin Andronescu, technical expert, which have offered the support for this small community situated in the area of the partner Municipality - Alba Iulia in order to promote activities in the field of sustainable energy and to achieve the SEAPs) through an inclusive peer-to-peer approach. Another topic discussed during the forum was on raising the awareness of citizens regarding efficient energy products, low energy consumption and reduced CO2 emissions, and the involvement of local authorities in order to reduce energy consumption. Furthermore, the BEI analysis which will help the community in developing their SEAPs was presented together with the presentation of the Conurbant project and the exposure of the objectives of the Covenant of Mayors	29
Second Energy Forum	Municipality of Alba Iulia	13/11/2012 - Berghin		17
Third Energy Forum	Municipality of Alba Iulia	14/11/2012 - Santimbru		19
Fourth Energy Forum	Municipality of Alba Iulia	14/11/2012 - Ighiu		27
Working group	Municipality of Alba Iulia	11/04/2013 – Alba Iulia	During the Working Group were presented the SEAPs of each community, were proposed and discussed actions that can be included in SEAPs.	10
Working group - Exchange of experience between Alba Iulia Municipality and the Municipality of Due Carrare, Italy	Municipality of Alba Iulia	31/05/2013 – Alba Iulia	In the first part of the working group the main goal was to present the 4 SEAPs completed, and another goal was to identify and establish 3-4 common actions which were included in the SEAPs in order to implement this actions in a short-term period. In the last part of the meeting were presented several case studies in order to exchange experience between Alba Iulia Municipality and Municipality of Due Carrare, Italy. Topics such as solutions for energy efficiency and renewable energy production, efficient public lighting and indoor lighting sources (LED) were also discussed.	41
Training session in Belišće - Local training on CO2 emissions and SEAP	Municipality of Osijek and Town of Belišće	26/10/2011 - Belišće	Training session as a project activity designed to inform towns of Osijek conurbation about the project, CO2 emissions, institutionalization of policies, on importance of SEAP development and Covenant of Mayors held in Belišće as one of the conurbation towns.	15
Training session in Beli Manastir - Local training on CO2 emissions and SEAP	Municipality of Osijek and Town of Beli Manastir	16/12/2011 - Beli Manastir	Training session as a project activity designed to inform towns of Osijek conurbation about the project, CO2 emissions, institutionalization of policies, on importance of SEAP development and Covenant of Mayors held in Beli Manastir as one of the conurbation towns.	18
Training session in Donji Miholjac - Local training on CO2 emissions and SEAP	Municipality of Osijek and Town of Donji Miholjac	Donji Miholjac	Training session as a project activity designed to inform towns of Osijek conurbation about the project, CO2 emissions, institutionalization of policies, on importance of SEAP development and Covenant of Mayors held in Donji Miholjac as one of the conurbation towns.	15
Training session in Vinkovci - Local training on CO2 emissions and SEAP	Municipality of Osijek and Town of Vinkovci	21/12/2011 - Vinkovci	Training session as a project activity designed to inform towns of Osijek conurbation about the project, CO2 emissions, institutionalization of policies, on importance of SEAP development and Covenant of Mayors held in Vinkovci as one of the conurbation towns.	27
2nd training in Vinkovci - Local training on SEAP development	Municipality of Osijek and Town of Vinkovci	20/04/2012 - Vinkovci	2nd training sessions on which the participants were informed about the main CO2 emission factors and other important issues in SEAP development and development of good quality BEI.	20
Energy Days 2013 – workshop done together with Fund For Environmental Protection And Energy Efficiency of	Municipality of Osijek, Regional Development	12/09/2013 - Osijek	Organized workshop together with Fund For Environmental Protection And Energy Efficiency in order to inform local self-governments on new Call for co-financing of energy audits. Also a Working group on SEAP development was held and gave all local self-governments an insight	24

Co-funded by the Intelligent Energy Europe
Programme of the European Union

Republic of Croatia	Agency of Slavonija and Baranja		to what it means to be a Covenant of Mayors signatory.	
Energy Days 2013 – Open Day on solar house and Conurbant work group	Municipality of Osijek, Regional Development Agency of Slavonija and Baranja	13/09/2013 - region of Slavonija and Baranja	Open door event on Osijek Solar House to inform the public about the activities of the project and to give valuable information to the citizens about solar house and how do the passive house systems work.	20
Osijek Energy Days 2012 – Workshop with Fund For Environmental Protection And Energy Efficiency of Republic of Croatia	Municipality of Osijek, Regional Development Agency of Slavonija and Baranja	18/06/2012 - Osijek	Representatives of local self-governments of 5 Counties in the Region were informed about the new legal obligations set by the State in order to insure efficient energy consumption as well as low CO2 emission.	general public
Osijek Energy Days 2012 – Energy fair	Municipality of Osijek, Regional Development Agency of Slavonija and Baranja	16/06/2012 - Osijek	Energy fair organized to inform the public about the project and to give them insight on local, regional, national and international distributors, NGOs, producers dealing with energy efficiency and environmental production.	general public
Forum in Beli Manastir - Presentation of BEI and development of measures	Municipality of Osijek and Town of Beli Manastir	13/06/2013 - Beli Manastir	Forum organized in order to present the local stakeholders with BEI results and to involve them in SEAP measurements selection process. Organized morning session in Beli Manastir and afternoon session in Osijek.	21
Forum in Osijek - Presentation of BEI and development of measures	Municipality of Osijek	13/06/2013 - Osijek	Forum organized in order to present the local stakeholders with BEI results and to involve them in SEAP measurements selection process. Organized morning session in Beli Manastir and afternoon session in Osijek.	41
Forum in Belišće - Presentation of BEI and development of measures	Municipality of Osijek and Town of Belišće	11/09/2013 - Belišće	Forum organized in order to present the local stakeholders with BEI results and to involve them in SEAP measurements selection process. Organized morning session in Belišće and afternoon session in Donji Miholjac	37
Forum in Donji Miholjac - Presentation of BEI and development of measures	Municipality of Osijek and Town of Donji Miholjac	11/09/2013 - Donji Miholjac	Forum organized in order to present the local stakeholders with BEI results and to involve them in SEAP measurements selection process. Organized morning session in Belišće and afternoon session in Donji Miholjac	21
Forum in Vinkovci - Presentation of BEI and development of measures	Municipality of Osijek and Town of Vinkovci	25/09/2013 - Vinkovci	Forum organized in order to present the local stakeholders with BEI results and to involve them in SEAP measurements selection process.	33
Working group on SEAP development in Osijek for smaller municipalities of the Osijek-Baranja County	Municipality of Osijek, Regional Development Agency of Slavonija and Baranja	10/09/2013 - Osijek	Working group organized to inform smaller municipalities in Osijek-Baranja County and Regional Development Agency of Slavonija and Baranja about the SEAP development process as well as the positive sides of being a Covenant of Mayors signatory. There were participants from Kneževi Vinogradi, small municipality from Baranja region and employees of RDA.	7
Working group on SEAP development in Osijek for bigger municipalities of Osijek-Baranja County and of neighbouring counties	Municipality of Osijek, Regional Development Agency of Slavonija and Baranja	12/09/2013 - Osijek	Working group organized to inform larger municipalities in Osijek-Baranja County and other neighbouring counties about the SEAP development process as well as the positive sides of being a Covenant of Mayors signatory.	24
Working group on SEAP development	Municipality of Osijek	25/09/2013 -	Working group was organized in cooperation with conurbation town Vinkovci and DOOR NGO	8

Co-funded by the Intelligent Energy Europe
Programme of the European Union

in Vinkovci	and Town of Vinkovci	Vinkovci	to inform smaller municipalities surrounding the town about the importance of development of SEAPs and good sides of being a Covenant of Mayors signatory.	
Peer-to-peer audit and peer meeting in Osijek	Municipality of Osijek, Regional Development Agency of Slavonija and Baranja	19-20/02/2014 - Osijek	Peer-to-peer audit held with peer City of Limassol, Cyprus and trainer City of Padova, Italy. Participants at the meeting were the deputy mayor and deputy head of department of environmental protection. Peer-to-peer meeting held within Conurbant staff of Limassol, Padova and Osijek but also with representatives of Conurbation towns	21
Final conference of the project Conurbant	Municipality of Osijek, Regional Development Agency of Slavonija and Baranja	24/04/2014 - Osijek	Final conference of the project, held in Osijek, Croatia, presenting the achieved results of the project as well as the current situation with Europe 2020 goals in EU and Croatia. Conference was divided in four parts – 1. Presenting the current situation in Croatia with participation of Croatian Ministry of Economy and Fund for environmental protection and energy efficiency. 2. Presenting the project Covenant of Mayors with participation of Croatian CoM club and CoM Office via Skype presentation. 3. Presentation of the project and presentation of experiences of partners in EU funding. 4. Panel discussion on Peer-to-peer approach and experiences from conducting the activities on the project Conurbant – lessons learnt.	71
First Training session	Municipality of Palma	29/11/11 - Palma	A day to explain challenges of CoM and Conurbant project and its opportunities within the IEE project line.	12
Second Training session	Municipality of Palma	27/01/2012 - Palma	A day to explain European financing tools, public-private cooperation in efficiency energy projects (ESCO's)	11
First Working group - Innovative financing solutions for energy and climate local actions	Municipality of Palma	23/04/2013 - Palma	A day to share public and private experiences on efficiency energy around Europe, presentation of European financing tools to finance SEAP projects.	27
Second Working group - Synergistic actions development from respective SEAP among conurbation towns.	Municipality of Palma	20/06/2013 – Palma	A day to share SEAP measures among conurbation towns and to choose measures to develop in the urban area.	9
Third Working group - Synergistic actions development from respective SEAP among conurbation towns	Municipality of Palma	04/12/2013 - Palma	A day to put in common chosen ideas in the previous working group, assessment and choose two ideas to develop them before the end of Conurbant project	10
First Local forum	Association of farmers and stockbreeders located in the neighborhood of la Casa Blanca, Palma de Mallorca	31/07/12 - la Casa Blanca, Palma de Mallorca	A meeting to get the predisposition of farmers in the rural area in the municipality of Palma to change traditional crops towards energetic crops.	50
Second Local forum - District Heating and Cooling System: exploring potential clients and their perception of the Project, potential barriers and opportunities	Municipality of Palma	Forum #2a: - 08/08/2012 Forum #2b: - 13/08/ 2012 - Forum #2c: - 29/10/2012 -.	This forum took place on three different places in three different dates: Forum #2a: - Date: 08/08/2012 - dependencies of the waste and sewage municipal company (EMAYA); Forum #2b: - 13/08/ 2012 - Hoteliers Association of Palma Beach; Forum #2c: - 29/10/2012 - Touristic Companies Association of Palma Beach. A meeting to present district heating-cooling system, and to collect the opinion about project in the area where system will be located. The area is the most touristic place in the city, so project will be profitable from the economical point of view if hoteliers, airport and commercial areas, as well residential	32

Co-funded by the Intelligent Energy Europe
Programme of the European Union

			consumers will be ready to purchase, energy produced by the system.	
Third Local forum - Projects for the Future	Municipality of Palma	17/11/2012 – Palma	A meeting to present the energy efficiency projects included on the SEAP, and they will be led by the City Hall of Palma and EMAYA (waste and sewage municipal company).	20
Fourth Local forum - Presentation of district heating-cooling system, located in Platja de Palma area, to Pla de Sant Jordi's farmers	Municipality of Palma	07/11/2013 – Palma	A meeting to present district heating-cooling to farmers and to show and share numbers (from the economical point of view) to convince farmers what planting energy crops is more profitable than planting traditional crops. And to take advantage over an area where is nowadays almost abandoned related to crops.	70
Energy day - Energy efficiency projects presentation to citizens.	Municipality of Palma	05/06/2013 - Palma	The first area has been a meeting place where the Environment Councilor had the opportunity to speak about all the municipal efficiency energy projects. General Director of Energy from the Balearic Island Government spoke about efficiency energy and futures plans or programs about efficiency energy projects. The Municipality of Palma took the opportunity to present draft SEAP. The second area has been a small exhibition center, open to all citizens, where were presented all municipal efficiency energy projects which will be carried up within the SEAP, from the Environment Area of the City Hall of Palma.	16 people at the presentation on tent and more than 1000 people in the small exhibition centre.
Training Session 1 - First local training session	Limassol Municipality-Stratagem Energy Ltd	27/09/2011 - Limassol	Training session for the diffusion of project knowledge to people from all conurbations	30
Training Session 2 - Second local training session	Limassol Municipality-Stratagem Energy Ltd	14/12/2011- Limassol	Training session for the diffusion of project knowledge to people from all conurbations	30
Forum 1 - Limassol Municipality and K. Polemidia Municipality Energy Forum	Limassol Municipality-Stratagem Energy Ltd	06/02/2013	Energy Forum to present BEIs and receive suggestions for SEAP measures and actions	26
Forum 2 - Yermasoyia Municipality Energy Forum	Limassol Municipality-Stratagem Energy Ltd	13/02/2013	Energy Forum to present BEIs and receive suggestions for SEAP measures and actions	32
Forum 3 - Mesa Yitonia Municipality Energy Forum	Limassol Municipality-Stratagem Energy Ltd	20/02/2013	Energy Forum to present BEIs and receive suggestions for SEAP measures and actions	17
Working Group 1	Limassol Municipality-Stratagem Energy Ltd	03/09/2013	Working group with Limassol and conurbations to decide on common actions	13
Working Group 2	Limassol Municipality-	19/09/2013	Working group with Limassol and conurbations to decide on common actions	12

Co-funded by the Intelligent Energy Europe
Programme of the European Union

	Stratagem Energy Ltd			
Working Group 3	Limassol Municipality- Stratagem Energy Ltd	15/10/2013	Working group with Limassol and conurbations to decide on common actions	12
Energy Day 1 - Limassol green energy festival	Limassol Municipality	23/06/2012	Disseminate the Conurbant activities and inform the public on green energy	700
Energy Day 2 - Kids go green	Limassol Municipality	02/06/2013	Disseminate the Conurbant activities and inform the public on green energy	1500
Training seminar - Conurbant local training session no. 1	Municipality of Arad	28/10/2011 - Arad	Local training session. Set up the framework for the collaboration between the Municipality of Arad and the conurbation towns.	25
Training seminar - Conurbant local training session no.2	Municipality of Arad	25/11/2011 - Arad	Local training session Raise awareness of the local authorities for the implementation of the Conurbant Project for the conurbation.	41
Forum no. 1, session 1	Municipality of Arad, Denkstatt Romania	30/01/2012 - Arad	Build a work team to actively participate in the successful development and implementation of SEAP.	31
Forum no. 1, session 2	Municipality of Arad, Denkstatt Romania	03/02/2012 - Arad	Raise awareness on climate changes issues and on the future responsibilities of the towns, resulting from signing the Covenant of Mayors.	23
Forum no. 1, session 3	Municipality of Arad, Denkstatt Romania	22/02/2012 - Arad	Decide the modalities to make the baseline CO2 emissions inventories – how to collect data, fill in the data collection file, in order to quantify the total quantity of CO2 emissions for each conurbation town.	14
Forum no. 2 session 1	Municipality of Arad, Denkstatt Romania	09/05/2012 - Arad	Greenhouse Gas Emissions Baseline Inventory in tons of CO2, based on the assessment of the collected and centralized data	14
Forum no. 2 session 2	Municipality of Arad, Denkstatt Romania	16/05/2012 - Lipova	Baseline Greenhouse Gas Emissions Inventory in tons of CO2, based on the assessment of the collected and centralized data.	13
Forum no. 2 session 3	Municipality of Arad, Denkstatt Romania	22/05/2012 - Nadlac	Determine total CO2 emissions per baseline and CFP per capita in the city of Arad.	10
Forum no. 3 session 1	Municipality of Arad, Denkstatt Romania	01/06/2012 - Arad	Define and set up the targets for reducing emissions, define clear objective and measures for each sector targeted, define strategic objectives and priority measures with the view of reducing the CO2 emissions and diminish the impact of climate changes in the city of Arad.	10
Forum no. 3 session 2	Municipality of Arad, Denkstatt Romania	06/06/2012 - Santana	Draw up strategic resolutions taking into account the existing criteria and standards and agree on the short, medium and long term climate strategy. Set a time frame for the measures.	10
Forum no. 3 session 3	Municipality of Arad, Denkstatt Romania	08/06/2012 - Pecica	Development of SEAP according to the requirements of the Covenant of Mayors.	10
Energy Day in Arad	Municipality of Arad, Denkstatt Romania	19/06/2012 - Arad	Debate on very actual energy efficiency issues and promotion of alternative technologies of sustainable energy as well as good practices and concrete applications in the field of environment protection and actions that should have the support of the entire community in order to fight the effects of climate changes.	39
Forum no. 4 session 1	Municipality of Arad, Denkstatt Romania	19/07/2012 - Arad	Define the targets for reducing the CO2 emissions and the priority measures that would lead to these reductions. Detail the ways to define a SMART measure. Define the objectives and targets for each activity sector.	7

Co-funded by the Intelligent Energy Europe
Programme of the European Union

Forum no. 4 session 2	Municipality of Arad, Denkstatt Romania	24/07/2012 - Arad	Participation in public debate for approving the Climate Strategy of Arad and the SEAP Including the appropriate actions/proposals in the action plan.	32
Forum no. 4 session 3	Municipality of Arad, Denkstatt Romania	14/08/2012 - Arad	Political commitment to the Climate Strategy Programme for implementing the measures meant to reduce the greenhouse gas effects and SEAP approval.	31
Work group meeting no.1	Municipality of Arad	16/05/2012 - Arad	Work group meeting organized at the completion of the BEI. Questionnaires and data collection sheets, presentation of the BEIs of the conurbation towns.	13
Work group meeting no.2	Municipality of Arad	15/11/2012 - Arad	Work group meeting organized during the development of SEAP. Define targets for CO2 reduction and priority measures that lead to these reductions, establish priority projects and end efficiency measures.	5
Work group meeting no. 3	Municipality of Arad	13/03/2013 - Arad	Work group meeting after finalization of SEAP. Instruct the work groups of the conurbation towns for uploading SEAPs on the Covenant of Mayors website and the next steps for the implementation and monitoring of the SEAPs.	12
Energy Day in Arad	Municipality of Arad	21/06/2013 - Arad	First day: raising awareness event /competition at the Technical College "Aurel Vlaicu" with the participation of 40 pupils and their teachers. Second day: "Energy Day conference – second edition" with the participation of representatives of the municipality and stakeholders.	100
Conference, Discussion Forum and Regional energy exhibition - Energy Days Timișoara 2012	Municipality of Timișoara in cooperation with Chamber of Commerce and Industry of Timiș County and ROSENC Romanian Cluster for Sustainable Energy	18-19/06/201 2 - Timisoara	CONURBANT project benefitted from exchange of ideas and information through the project „Linking businesses with environment friendly technologies products and services”, financed by the European Union through the Cross-border Cooperation Programme Hungary-Romania 2007-2013, in which CCIAT is a partner. During this event, exhibitions were organized in partnership with the Chamber of Agriculture, Industry and Commerce Timiș and ROSENC Romanian Cluster for Sustainable Energies – the 6th edition of „ENERGY OF THE FUTURE”, the first edition of the section „THE CITY OF TOMORROW” and „CLUSTERS SHOWROOM”. The aim of these exhibitions was to promote energetic efficiency, conventional and unconventional energies, products and services and integrative solutions of renewable energies.	2500
Conference, Painting contest, educational and awareness raising activities - Energy Days Timișoara 2013	Timișoara Municipality in cooperation with Timis County Energy Management Agency	18-28/06/201 3 - Timisoara	Event dedicated both to Timisoara Conurbation - with the aim of promoting the Covenant of Mayors movement, energetic efficiency, and the use of RES in order to reach the target to reduce the greenhouse gas emissions - and to all the citizens – in order to inform them and raise their awareness on the extent of energy issues. ENERGY DAYS Timișoara 2013 took place with the following Programme: -18.06.2013 – Painting Contest with the theme “GREEN ENERGY FOR SUSTAINABLE DEVELOPMENT”, with the participation of schools from Timisoara conurbation; -21.06.2013 – Conference and Forum for Energy “COVENANT OF MAYORS AND LOCAL ENERGY PARTNERSHIP” in cooperation with Timis County County Council and the Timis County Association for Energy Management - AMET; – Opening of the painting exhibition; - 24.06.2013 – inauguration of a GREEN TRACK AND GREEN MARCH in Timisoara Municipality – promoting urban mobility - outdoor educational and artistic activities in Children Park ION CREANGA TIMISOARA; 25-28.06.2013 – awareness raising activities targeting the citizens about the selective collection of waste, energy saving and eco-driving. Publication on Timis County Agenda July- August 2013	2500

Programme of the European Union

achievements in Bulgaria country			efficiency, stakeholders from Regional Inspectorate of Environment and Water – Vratsa, helped facilitate training and easier assimilation of matter from the other participants.	
International open workshop - LOCAL LEADERSHIP IN SUSTAINABLE ENERGY	Municipality of Vratsa with the support of Chamber of Commerce Vratsa and CONURBANT, LEAP, Covenant capaCITY, ERENET and CASCADE projects.	27/06/2013 - Brussels	The event's goal was to increase the number of Municipalities signing the Covenant of Mayors and to help them in the elaboration, implementation and monitoring of their SEAPs in order to answer of challenge of energy and climate targets for 2020. The first part of the session was dedicated to the lessons learnt from SEAPs development and implementation including examples and good practices, success factors and barriers. In addition the impact and effectiveness of the peer-to-peer approach and how to use it was presented. Of the second part of the event speakers from the Executive Agency for Competitiveness and Innovation of Brussels presented the new financial opportunities - Horizon 2020, Intelligent Energy Europe, ELENA Facility and other schemes as well as their vision for the next programming period. Some best practices were been shown from our partners.	50
Energy forum in Vratsa	Municipality of Vratsa	06/04/2013 - Vratsa	The Energy Forum, held on 06.14.2013, with the participation of stakeholders is part of the official responsibilities of Vratsa included in the Agreement and is intended to raise public awareness and knowledge about the opportunities for rational use of energy. The forum was organized with following presentation: Conurbant project, BEI elaborated, sessions of how to reduce energy consumption in public building, residential buildings, transport and public lighting. There were presented measures that Municipality of Vratsa identified. The proposed measures were defined very exactly but we had some new proposals that were been included in the SEAP.	35
Energy forum in Mizia	Municipality of Mizia with the support of Municipality of Vratsa	22/05/2013 - Mizia	The forum was organized with following presentations: Conurbant project, BEI elaborated, sessions of how to reduce energy consumption in public building, residential buildings and public lighting. The main organization was made from municipality's experts with the help of Municipality of Vratsa. On the forum there were presented measures that Municipality of Mizia identified. They were defined very exactly and there were no need of additional proposals.	54
Energy forum in Oryahovo	Municipality of Oryahovo with the support of Municipality of Vratsa	28/05/2013 - Oryahovo	The forum was organized with following presentations: Conurbant project, BEI elaborated, sessions of how to reduce energy consumption in public building, residential buildings and public lighting. The main organization was made by municipality's experts with the help of Municipality of Vratsa. On the forum there were presented measures that Municipality of Oryahovo identified. They were defined very exactly and there were no need of additional proposals.	31
Energy forum in Krivodol	Municipality of Krivodol with the support of Municipality of Vratsa	28/06/2013 - Krivodol	The forum was organized with following presentations: Conurbant project, BEI elaborated, sessions of how to reduce energy consumption in public building, residential buildings and public lighting. The main organization was made by municipality's experts with the help of Municipality of Vratsa. On the forum there were presented measures that Municipality of Krivodol identified. They were defined very exactly and there were no need of additional proposals.	27
Energy days 2012 in Municipality of Vratsa and 5 conurbation municipalities	Municipalities Vratsa, Mezdra, Mizia, Oryahovo, Kozloduy, Krivodol	June 2012	Energy Days were organized in Municipality of Vratsa and all conurbation municipalities, participating in the CONURBANT project. During these days there were held a lot of interesting events.	50 000
Energy days 2013 in Municipality of Vratsa and 5 conurbation municipalities	Municipalities Vratsa, Mezdra, Mizia, Oryahovo, Kozloduy	24-28/06/2013	Energy Days were organized in Municipality of Vratsa and all conurbation municipalities, participating in the project CONURBANT. During these days there were held a lot of interesting events. Vratsa - initiative the "Earth Hour"; preparation of promotional materials; drawing	62 000

Co-funded by the Intelligent Energy Europe
Programme of the European Union

	and Krivodol		competition "For cleaner environment"; preparation of newsletter with useful information about the projects and programs for funding energy efficiency measures and sustainable energy development with the emphasis on these which are essential for the business. Krivodol - the "Earth Hour"; Drawing competition entitled "For cleaner environment" Oryahovo - paintings on the topics "What is the sun" and "To love and protect our nature". The most original ideas were awarded with special prizes. Municipality of Kozloduy organized information campaign during the Energy Days 2013. The municipality administration spread practical tips for reduction of energy consumption in the households. Municipality of Mizia - presentations about the project "CONURBANT" for citizens, municipal experts, and members of NGOs and presented different ways of saving energy, as well as the investment project "Construction of a plant for production of biogas in the city of Mizia". Energy Days in Mezdra 2013 were aimed at different target audiences: students, pupils, all residents of the Municipality of Mezdra. There were organized a group of participants who visited the HPP in the village of Brusen. These initiatives included also drawing competition and distribution of flyers with tips for saving energy.

- **Events organized/participated at local/regional/national EU level for presentation and promotion of the project** – throughout the whole project implementation all project partners carried out wide promotional campaign disseminating the project activities and results with a high visibility at local, regional, national and European levels as well as promoting and supporting the Covenant of Mayors initiative and capitalising on synergies with other relevant projects and initiatives. Project partners used all possible events and meetings that they participated and organized as an opportunity to share their experiences and results. Great cooperation was created with some of the other projects funded under the IEE Programme (SHEEP, LEAP, Covenant Capacity, Erenet, CASCADE, etc.). During the project a lot of common initiatives and events were held thus way creating real opportunities for future cooperation and projects.

CONURBANT project was presented during different events held by the project partners thus way disseminating its activities and results beyond the project partner's countries. Information collected by the Chamber of Commerce and Industry Vratsa from all project partners shows that during the project partners had participation in 16 international events with total number of more than 1100 participants.

More information about the types of events participated and organized by the project partners and short descriptions about their content is listed in the table below:

Co-funded by the Intelligent Energy Europe
Programme of the European Union

Type of Event	Organizer	Date and Place	Short description	No. of persons reached
Joint Workshop with IEE "SHEEP" project - Promoting the Eco-design approach as an opportunity to access the "Green economy" and not as a mere formal application of EC Directives	Municipality of Vicenza and IT IS Rossi of Vicenza	27/04/2012 - Vicenza	This workshop was the international event foreseen in the IEE SHEEP project and involved a high number of young people, as students of one of the biggest technical institute of Vicenza and the EU partners of the project. Conurbant had the chance to widely disseminate its activities.	100
Joint Workshop with IEE "BIOGAS HEAT" project	Agroenergia srl and Municipality of Vicenza	15/11/2013 Vicenza	This workshop was organized in the IEE BIOGAS HEAT project and allow Conurbant project to have the chance of disseminate its results and explain the peer to peer approach efficiency.	40
Conference at the annual National Fair "ECOMONDO" Covenant of Mayors: Energy and mobility policies toward local sustainability	Energheia srl and Municipality of Vicenza	11/11/2011 - Rimini	The most important Fair on Sustainable Energy Solutions and Policies at national level gave to the coordinator the great opportunity of introducing the CONURBANT project to many Italian Municipalities Representatives	120
Presentation of the project at the IEE "GBE Factory" project workshop	Union Camere del Veneto and Municipality of Vicenza	02/10/2012 - Veneto	This workshop organised by one of the regional stakeholder was a good opportunity for presenting Vicenza experience on Covenant of Mayors path and SEAP redaction thank to IEE projects.	50
Presentation of the project at "Smart City Exhibition" – Bologna Fair	Municipality of Vicenza with Agenda 21 Coordinator	16-18/10/ 2013 Bologna	This new important national Fair on Smart Cities issues gave to the coordinator the great opportunity of disseminating the CONURBANT project results to many Italian Municipalities Representatives	300
Presentation of the project at Confartigianato seminar "The efficiency of energy consumption: learn, plan, act"	Confartigianato della Marca Trevigiana	12/04/2013 Asolo	This workshop organised by one of the regional stakeholder was a good opportunity for presenting Vicenza experience on Covenant of Mayors path and SEAP redaction thank to IEE projects.	75
Workshop - Dissemination of the Conurbant project results	ICLEI Europe and the 3ENCULT project consortium	04/03/2014 – Alba Iulia	This workshop aimed to ensure exchange and knowledge-sharing on topics such as the economic feasibility of refurbishing historic buildings, recommendations and experiences on how to save historic buildings and energy to meet the challenges of growing tourism in European historic centres. The event was aimed at local political decision-makers who guide the urban planning strategy and/or climate protection work of the municipality and technical staff working with monument protection, buildings, energy planning.	33
Presentation on project Conurbant and participation in Covenant of Mayors	City of Zagreb, Croatian Covenant of Mayors Club	16/05/2013 - Zagreb	Ana Nemet Đurđević held a presentation on project Conurbant and participation of the City of Osijek in Covenant of Mayors.	20
Capacity Building Workshop Romania Working groups and Discussion Panel - SEAP Development and	ManagEnergy and Harghita County Council, Municipality of	06-07/11/2012	The workshop was aimed at local authorities that have signed the Covenant of Mayors initiative yet are still at an early stage of the planning process, as well as local authorities interested in signing up. The first day of the workshop was devoted to the initiation and development of Strategic Energy Action Plans (SEAP) in relation to the requirements of the Covenant of Mayors as well as national	60

Co-funded by the Intelligent Energy Europe
Programme of the European Union

Prospects for EPC	Timisoara		framework conditions. The second day focused on implementation issues, and particularly prospects for using energy performance contracting (EPC) as a tool for implementing sustainable energy projects in the framework of SEAPs. There is growing demand for ESCO (EPC) services in Romania, yet some major barriers exist that make many municipalities reluctant to enter into such arrangements. The newly approved EU Energy Efficiency Directive includes measures to strengthen the EPC market. Experience of Romanian CoM signatories and CONURBANT Project were presented.	
Capacity Building Workshop Romania Working groups and Discussion Panel - "Boosting SEAP implementation in Western Romanian cities"	ManagEnergy and Timis County Council, Municipality of Timisoara	27-28/03/2014	In the frame of the event, CONURBANT Project and the results of the activities implemented in Timisoara Conurbation were presented. A working group and Discussion Panel were also organized. In this way, CONURBANT Project contribute to trigger exchange of experience and to build capacities to the local and county level governments and technical staff, in order to develop Sustainable Energy Action Plans and to help smaller or medium size local authorities to answer of challenge of energy and climate targets for 2020. Another important task was promotion of COVENANT OF MAYORS movement and to support Timis County Local authorities to sign the Adhesion to the Covenant of Mayors.	100
Study visit Mannheim, September 2013 - "Energy efficient buildings & districts"	EUROCITIES and City of Mannheim (Germany), Municipality of Timisoara	23-23/09/2013	The study visit was an experience of direct interaction with international representatives of local governments, politicians, specialists and other local actors to discuss openly about projects completed and planned, about success factors, difficulties encountered and how they could be overcome. The organization of the study tour, both of the presentation parts and of the on-site visits proper, was excellent, not only in terms of time allocation but also of explanations, which were an opportunity to exchange information and opinions among all participants.	50
Presentation and discussions at international meetings	Municipality of Arad	26/11/2013 - Strasbourg	As a member of the Green Energy Committee of the Strasbourg Club, Arad presented the Conurbant project at the workshop on green energy.	50
Workshop - Procurement & Financing at Local Renewables: Improving financial access to sustainable energy roll-out	ICLEI Europe, Municipality of Salaspils	25/10/2013 - Freiburg	Workshop, providing an insight into procurement processes, financing, opportunities and tools.	50
Participation in the discussions in Riga Planning Region	Ekodoma	14/03/2014 - Riga Municipality	Riga Planning Region organised a round table discussion where also Marika Roša and Ilze Dzene from Ekodoma and shared their experience in energy planning. M.Roša shortly presented the main outcomes of the Conurbant project and highlighted possible role of the region to foster development and implementation of the SEAPs in municipalities.	30
Presentation during conference „Perspectives on Interregional Co-operation"	Municipality of Salaspils	15/12/2011	„Successful experience in implementing projects of IEE and other international programmes in the field of energy " - Presentation of Dagnija Blumberga included also slides on Conurbant project on foreseen activities and also possibilities of the Covenant of Mayors	30
Presentation of project Conurbant on round table	District Montana, Municipality of Vratsa	12/04/2012 - Montana	Municipality of Vratsa participated in the first round table under project "C-LIEGE - Clean last mile transport and logistics management", supported by Intelligent Energy Europe on 12.04.2012 and presented the CONURBANT project, goals and expected results of the project. The message of the Covenant of Mayors was disseminated and other Mayors were encouraged to join the Covenant.	16
Energy efficiency management and renewable energy seminar	Chamber of Commerce and Industry Vratsa	01/03/2012 - Vratsa	Chamber of Commerce and Industry Vratsa participated in "Energy efficiency management and renewable energy seminar" on 01.03.2012 and presented the CONURBANT project, currently achieved goals and the future of the project.	30

III.4. Sustainable Energy Europe Awards 2014

One of the greatest achievements and main results of the wide dissemination campaign held by the project consortium during the project implementation is that the Conurbant project has been selected within 342 applicants as the first best 30 projects candidates for the Sustainable Energy Europe Awards 2014. The project CONURBANT - An inclusive peer-to-peer approach to involve EU CONURBations and wide areas in participating to the CovenANT of Mayors- has been shortlisted in the LEARNING category of the Sustainable Energy Europe Awards 2014 and has been selected to move to the next evaluation round. Projects in this category aim to improve knowledge and skills related to energy efficiency and renewable. They can include, but are not limited to, educational and capacity building programmes for students and professionals at schools, universities or training centres, as well as on the job training initiatives for professionals such as designers, installers, authorizing officers and planners.

A total number of 342 projects were submitted to the 2014 Sustainable Energy Europe & ManagEnergy Awards. From those, a total of 30 shortlisted projects (Nominees) have been selected by a set of nine technical experts (the Technical Advisory Committee) under the supervision of the European Commission's Executive Agency for Small and Medium-sized Enterprises (EASME). There are five nominees for each of the five categories of the SEE Awards and five for the ManagEnergy Award. Nominated projects, amongst which is the Conurbant project, will be evaluated by a high level jury. The jury of the Sustainable Energy Europe and ManagEnergy Awards 2014 includes representatives from different sectors: European institutions, local governments, energy agencies, and specialised media and industry associations.

Winners will be announced on 25 June 2014 at the European Commission's Charlemagne building with the presence of Commissioner for Energy Günther H. Oettinger (tbc). As well as widespread media promotion, winning projects will receive a free audio-visual production documenting the value of their achievements.

IV. Conclusion

The current Report on dissemination activities within the CONURBANT project presents a complete and tailored set of instruments and mechanisms used for effective and sustainable dissemination of the CONURBANT project, its objectives and results. It is related to the communication and dissemination strategy adopted by the project using established tools and channels.

Project created a useful and strong partnership, which is the basis for a future application in different programs.

Second Local Training – Vratsa, 07.12.2011

**International open workshop “LOCAL LEADERSHIP
IN SUSTAINABLE ENERGY” – Brussels, 27.06.2013**

Second Local Forum – Yermasoyia, 13.02.2013

Energy Days – Limassol, 02.06.2013

Promotion and dissemination materials:

The top image shows a collection of promotional materials for the Sustainable Energy Europe project. The central item is a large white umbrella with the project logo and a green footprint graphic. To the left of the umbrella is a poster titled 'Sustainable Energy Europe' with the dates 'April 2010 - June 2012'. To the right of the umbrella are several brochures, including one titled 'Go Green and Save Green' and another titled 'Sustainable Energy Europe'. The bottom image shows a close-up of the umbrella, highlighting the project logo and the green footprint graphic.
